ABOUT

Electronic Powerhouse from Rotterdam

Donn Stone is an Electronic powerhouse from Rotterdam. Known for his expensive musical taste and undeniable dancefloor energy. His unique style has resonated with audiences worldwide. Bringing a masterful fusion of rhythmic, melodic and uplifting electronic selections with an energetic and culturally rich vibe to every set.

Stone's journey into Afro-electronic music was sparked by a formative trip to Johannesburg, South Africa, where he built direct connections with local producers and immersed himself in the roots of the sound. This experience led to direct collaborations with South African producers and a deep commitment to bringing this culturally rich music to Europe and beyond. South African media, including ECR Radio and Briefly.co.za, featured him as an example of Afro-electronic music spreading internationally through a Dutch artist.

Back in Rotterdam, he built a reputation for marathon all-night sets — a mark of status in the Dutch club circuit. His residency at Bairro in 2026 became one of Rotterdam's most talked-about summer series, while Toffler and Paradiso's Parallel stage remain his regular home. His NTS Radio session further cemented his position as one of the Netherlands' leading electronic music voices.

Stone is an official Amsterdam Dance Event (ADE) artist, placing him among the recognised names in the global electronic music calendar.

> **A major figure in the Afro-Electronic dance music scene.**
>
> — PARADISO AMSTERDAM, 2024

> *"International DJ based in Rotterdam, he's been ruling the Afro-electronic scene for a while now."*
>
> — NTS RADIO, 2024
